

HOWAG - official partner of "TKD Kabel GmbH"

TKB KABEL is one of the world's largest well-known suppliers for cables, lines, ready-made cable assemblies and cable accessories. In addition TKD offers a wide range of products with far over 30,000 articles providing a diversity of applications for various sections of industry.

Within its own walls the TKH Group is able to access the development and manufacturing know-how of over 1,400 cable specialists. With worldwide 7 production sites, whereof 5 in Europe plus a fully automated logistics centre in Nettetel (D), high product availability and short delivery times can be assured.

TKD's experience in construction and application technology, which has been gathered over decades, combined with quality and environmental awareness, guarantees customers obtain innovative and high quality products even for the most difficult requirements.

HOWAG is a well-established Swiss company with international experience and know-how in versatile cable solutions since 1936.

HOWAG is your reliable partner and well-known for its cable confections, cable systems and assemblies as well as trading high-quality cables and components. Among its customers you will find engineering industries, IT- and telecom operators, security firms, energy production and distribution companies as well as medical product manufacturers.

Beside the classical "extended workbench" the highly qualified and motivated crew is an excellent contact point for new developments, product evaluations, productions in series and multinational solutions.

The production plants and warehouses in Switzerland, Bulgaria and China are all operating on identical high quality levels and maintain a close and direct collaboration among each other.

Additional value – from the simple cable to complex cable systems

Starting 1st July 2016 HOWAG is the official agency of TKD Kabel in Switzerland.

The close collaboration between TKD Kabel GmbH and HOWAG Kabel AG will considerably increase the local presence on the market and customers will benefit from several added values. Furthermore starting 1st August 2016 HOWAG's „cable system“ division will be completed by a segment specialist who was able to gain extensive experience and know-how with TKD over the last years.

- Quality solutions with focus on material handling technologies, industrial applications and drag chain systems.
- Most of TKD's densely packed cable assortment is available on the EPLAN data library.
- Benefit from an efficient and effective product settlement of the project as all our "solutions come from one source". Our maxim of a good "return of investment" is easy to achieve due to the high quality commitment of both partners.
- We happily attend your transnational projects with our broadly based and customer-orientated setup.
- High availability due to the TKD logistic center in Germany and the HOWAG warehouse in Dintikon.

HOWAG since 1936 – an traditional yet innovative company - We live «Swiss quality»
